PROJECTS

BrainBolt, a Quiz Master Web App | Django, React, HTML, CSS, JavaScript
- Built a full-stack interactive quiz application with Django backend and React frontend.
- Implemented multiple-choice questions with real-time answer selection, score tracking, and 15-second countdown timer per question.
- Displayed correct answers only after quiz completion to enhance learning experience.
- Developed a responsive and visually appealing interface using CSS for smooth user experience.
- Integrated REST APIs using Django REST Framework to fetch quizzes, questions, and answers dynamically.

AI Chat App | Python, Django, React, OpenAI API
- Developed an AI-powered chat application enabling real-time conversational interactions with a GPT-based assistant.
- Implemented a Django REST backend with endpoints for chat management, message retrieval, and session handling.
- Integrated OpenAI API to generate dynamic responses and manage conversation context.
- Designed a responsive React frontend with an interactive chat interface, ensuring seamless user experience.

ACHIEVEMENTS

Publicity Team Co-Head
- Led a dynamic team responsible for strategizing and executing the publicity campaign for Pratishurti 2024, a major inter-college cultural fest.

INNOVANZA'25
- Recognized as a Top 50 team at Innovanza 2025, a premier national innovation competition with over 1000 participating teams.

Certifications and Badges
- English for IT (Cisco), Certified in Programming in Python (Meta, Coursera), Problem Solving (Intermediate) - HackerRank, Java (Intermediate) - HackerRank
